CHICAGO – September was the nineteenth month in a row that unemployment rates fell in every metro area while eight metro areas across the state saw job loss compared to a year ago, according to preliminary data released today by the Illinois Department of Employment Security (IDES) and the U.S. Bureau of Labor Statistics (BLS). Not seasonally adjusted data compares September 2015 with September 2014.

Illinois businesses lost jobs in eight metro areas including the Quad Cities (-2.3 percent, -4,200), Carbondale-Marion (-2.0 percent, -1,100), Peoria (-0.8 percent, -1,500), and Decatur (-0.8 percent, -400). Illinois businesses added jobs in six metros, in which the largest increases were seen in: Champaign-Urbana (+1.7 percent, +1,900), Danville (+1.4 percent, +400), Elgin (+1.2 percent, +3,000), and Chicago-Naperville-Arlington Heights Metro Division (+0.9 percent or +34,200). The industry sectors recording job growth in the majority of metros were: Transportation, Warehousing and Public Utilities (11 of 14), Retail Trade (eight of 14), and Leisure and Hospitality (eight of 14).

“Illinois unemployment data since January have shown very weak

employment growth compared to many other states,” IDES Director Jeff Mays said. “Sub-state data paint an even bleaker picture for areas outside of the Chicago area that have lost a net 10,000 jobs over the past year. Additionally, our internal unemployment insurance claims data indicate the likelihood of labor market softening in the coming months.”

The not seasonally adjusted Illinois rate was 5.1 percent in September 2015 and stood at 12.2 percent at its peak in this economic cycle in January 2010. Rates fell in 100 of Illinois’ 102 counties. Nationally, the not seasonally adjusted unemployment rate was 4.9 percent in September and 10.6 percent in January 2010 at its peak. The unemployment rate identifies those who are out of work and looking for work, and is not tied to collecting unemployment insurance benefits.

Total Nonfarm Jobs (Not Seasonally Adjusted) – September 2015

Metropolitan Area	September 2015*	September 2014**	Over-the-Year Change
Bloomington MSA	95,800	95,100	700

Note:

Monthly 2014 unemployment rates and total nonfarm jobs for Illinois metro areas were revised in February 2015, as required by the U.S. Dept. of Labor, Bureau of Labor Statistics (BLS). Comments and tables distributed for prior metro area news releases should be discarded as any records or historical analysis previously cited may no longer be valid.

Central Illinois Highlights

Help Wanted

Area employers advertised for 7,600 positions in September and approximately 85 percent sought full-time employment, according to Help Wanted OnLine data compiled by the Conference Board, which is a global, independent business membership and research association. Employers actually need more workers than the help wanted advertising indicates because some industries, such as Construction, typically do not post advertised job openings.

Decatur MSA

The September 2015 not seasonally adjusted unemployment rate declined to 6.4 percent from 7.3 percent in September 2014. There were an estimated 3,200 unemployed people in the labor force in September 2015. The last time the September rate was equal to or lower was in 2007 when it was 5.6 percent.

The total number of nonfarm jobs in the Decatur metro area declined by (-400) compared to one year ago. Payrolls increased in Professional and Business Services (+200). Declines were reported in Transportation, Warehousing, and Utilities (-200), Leisure and Hospitality (-100), Other Services (-100), Educational and Health Services (-100), and Government (-100). All other major industry sectors were unchanged compared to one year ago.

Springfield MSA

The unemployment rate fell to 4.7 percent in September 2015 from 5.4 percent in September 2014. There were an estimated 5,200 unemployed people in the labor force in September 2015. The last time the September rate was equal to or lower was 2007 when it was 4.5 percent. The rate is below the comparable state rate of 5.1 percent and the U.S. rate of 4.9 percent. The data is not seasonally adjusted.

The Springfield metro area nonfarm job total increased by (+100) compared to a year ago. Payroll increases were reported in Educational and Health Services (+700), Leisure and Hospitality (+300), and Transportation, Warehousing, and Utilities (+200). Declines were led by Government (-400), Information (-300), and Manufacturing (-200). All other major industry sectors were little changed compared to last year.
